## INSTRUCTIONS FOR FORM 8903-K

**Purpose of Form**—This form is to be used only by a corporation filing a Form 720, Kentucky Corporation Income Tax and LLET Return, to calculate the Kentucky domestic production activities deduction (KDPAD).

Your KDPAD may be different from your federal domestic production activities deduction (DPAD) because of differences in taxable net income and qualified production activity income resulting from differences in Kentucky and federal depreciation and expense deductions allowed under Sections 168 and 179 of the Internal Revenue Code (IRC) and other Kentucky adjustments provided in KRS 141.010.

KDPAD is limited by your Kentucky apportioned taxable net income before the KDPAD and after the Kentucky net operating loss deduction (KNOLD).

KDPAD is only computed for corporations as defined in KRS 141.010(24). General partnerships (Form 765-GP), partnerships with limited liability (Form 765) and S corporations (Form 720S) shall provide for each partner, member, or shareholder: (1) If the partnership or S corporation is not using the small business simplified overall method to allocate and apportion cost of goods sold and deductions between Kentucky domestic production gross receipts and other receipts, the following: (a) Federal domestic production gross receipts (DPGR) (b) The Kentucky domestic production gross receipts (KDPGR), (c) Cost of goods sold allocated to DPGR, adjusted to reflect any differences in Kentucky and federal income tax law, (d) Total deductions, expenses, and losses directly allocable DPGR, adjusted to reflect any differences in Kentucky and federal income tax law, (e) Other deductions, expenses, and losses not directly allocable DPGR or another class of income, adjusted to reflect any differences in Kentucky and federal income tax law, and (f) Kentucky W-2 wages allocable to DPGR; and (2) If the partnership or S corporation elected to use the small business simplified overall method to allocate and apportion cost of goods sold and deductions between Kentucky domestic production gross receipts and other receipts, the following: (a) DPGR, (b) KDPGR, (c) The qualified production activities income, adjusted to reflect any differences in Kentucky and federal income tax law and (d) Kentucky W-2 wages allocable to DPGR.

For individual taxpayers: (1) a full-year resident individual is allowed the federal deduction for the KDPAD; and (2) a part-year resident or full-year nonresident individual shall prorate the allowable federal DPAD based upon the percentage of KDPGR to federal DPGR, not to exceed 50 percent of the Kentucky W-2 wages allocable to the DPGR. Enter the KDPAD amount computed for a nonresident or part-year resident individual on Form 740-NP, page 4, Column B, Line 30.

When calculating your KDPAD in accordance with Section 199 of the Internal Revenue Code, follow the guidance provided in Internal Revenue Regulations §1.199-0 through §1.199-9 and Kentucky Regulation 103 KAR 16:310.

**Pass-through Entities**—Following federal instructions and using Kentucky amounts, attach a statement with each Kentucky Schedule K-1 necessary to enable each corporate partner or member to compute the KDPAD in accordance with Section 199 of the Internal Revenue Code. If the pass-through entity is not using the small business simplified overall method to allocate and apportion cost of goods sold and deductions between Kentucky domestic production gross receipts and other receipts, attach the following: (a) DPGR, (b) KDPGR, (c) Cost of goods sold allocated to DPGR, adjusted to reflect any differences in Kentucky and federal income tax law, (d) Total deductions, expenses, and losses directly allocable

to DPGR, adjusted to reflect any differences in Kentucky and federal income tax law, (e) Other deductions, expenses, and losses not directly allocable to DPGR or another class of income, adjusted to reflect any differences in Kentucky and federal income tax law, and (f) Kentucky W-2 wages allocable to DPGR; and (2) If the partnership elected to use the small business simplified overall method to allocate and apportion cost of goods sold and deductions between Kentucky domestic production gross receipts and other receipts, attach the following: (a) DPGR, (b) KDPGR, (c) The qualified production activities income, adjusted to reflect any differences in Kentucky and federal income tax law, and (d) Kentucky W-2 wages allocable to DPGR.
